Name:	
BAUCK Chem. I, period	

The following books are Reading Counts books relating to science. For an optional assignment each quarter, you can elect to check out one of these books from the PHUHS library, read it, return it, and then take the Reading Counts book quiz. You must pass the quiz to obtain the 20/20 grade. You have one attempt at the quiz. If you earn less than a 60%, the assignment will not be counted. Check Portal/Focus or our binder log for the due date each quarter. You can see Mrs. Titus in the library to help you find any of the titles below, or see her for more science suggestions. Circle the one you have chosen to check out:

A plague of frogs: unraveling an environmental mystery (Biology/Environmental Sci) Shaking the foundation: Charles Darwin and the theory of evolution (Biology) Fats: observations on the history and habitat of the city's most unwanted inhabitants (Biology) Working with animals (Biology/Zoology) Flu: the story of the great influenza pandemic of 1918 and the search for the virus that caused it Night comes to the Cretaceous: comets, craters, controversy, & the last days of the dinosaurs Freaks of the storm: from flying cows to stealing thunder: the world's strangest true weather stories The disappearing spoon: and other true tales of madness, love, and the history of the world from the periodic table the elements (Chemistry) S46 Kea Napoleon's buttons: 17 molecules that changed history (Chemistry) 547 August 1975 Aug	
Rats: observations on the history and habitat of the city's most unwanted inhabitants (Biology) Working with animals (Biology/Zoology) 591 Lee Flu: the story of the great influenza pandemic of 1918 and the search for the virus that caused it Night comes to the Cretaceous: comets, craters, controversy, & the last days of the dinosaurs 576.8 Pow Freaks of the storm: from flying cows to stealing thunder: the world's strangest true weather stories 551.5 Cer The disappearing spoon: and other true tales of madness, love, and the history of the world from the periodic table the elements (Chemistry) 546 Kea Napoleon's buttons: 17 molecules that changed history (Chemistry) 540 LeC	
Working with animals (Biology/Zoology) 591 Lee Flu: the story of the great influenza pandemic of 1918 and the search for the virus that caused it 614.5 Kol Night comes to the Cretaceous: comets, craters, controversy, & the last days of the dinosaurs 576.8 Pow Freaks of the storm: from flying cows to stealing thunder: the world's strangest true weather stories 551.5 Cer The disappearing spoon: and other true tales of madness, love, and the history of the world from the periodic table the elements (Chemistry) 546 Kea Napoleon's buttons: 17 molecules that changed history (Chemistry) 540 LeC

The disappearing spoon : and other true tales of madness, love, and the history of the world from the periodic table the elements (Chemistry) 546 Kea Napoleon's buttons : 17 molecules that changed history (Chemistry) 540 LeC	of
the elements (Chemistry) Napoleon's buttons: 17 molecules that changed history (Chemistry) 546 Kea 546 Kea	of
Napoleon's buttons: 17 molecules that changed history (Chemistry) 540 LeC	
A brief history of time (Physics) 523.1 Haw	
Longitude: the true story of a lone genius who solved the greatest scientific problem of his time 526.6209 S	ob
Experimenting with time (Physics) 529 Gar	
Smart and Spineless: exploring invertebrate intelligence 592.13 Dov	N
Bioluminescence: nature and science at work 572 Zim	
Radioactive by Winifred Conkling 539.7 Con	
Decoding our DNA 611 Bal	
An Ocean of Air: why the wind blows and other mysteries of the atmosphere 551.5 Wal	
An occar of Air. Why the wind blows and other mysteries of the atmosphere	
Matter by Chris Cooper 530 Coo	

When you have taken the quiz <u>and have returned the library book</u>, hand this sheet to Mrs. Titus. She will verify the quiz you took on the title you circled and fill out the score. Mrs. Titus will keep this sheet and put it in Mrs. Bauck's mailbox. She will email Mrs. Bauck for verification as well.
