

Dot Diagram Practice for Atoms and Ions – practice #1

For each atom...

- a) Write the name of the atom.
- b) Write the name of the ION formed. (Remember that negative ions will end in -IDE.)
- c) Write how many electrons are gained or lost to form the ion.
- d) Draw the electron dot diagram for the neutral atom.
- e) Draw the electron dot diagram for the ion formed.

EXAMPLE 1 – Na

- a) sodium
- b) sodium
- c) lost 1
- d)

e)

EXAMPLE 2 – Cl

- a) chlorine
- b) chloride
- c) gained 1
- d)

e)

QUESTIONS:

- 1) Cs
- 2) Ga
- 3) Se
- 4) Zn
- 5) F
- 6) P
- 7) Ba
- 8) Cd
- 9) In
- 10) Li
