

PRACTICE writing e- dot diagrams for ionic compounds:

- 1) potassium iodide – KI
- 2) aluminum fluoride – AlF_3
- 3) sodium phosphide – Na_3P
- 4) strontium oxide – SrO
- 5) zinc chloride – ZnCl_2

PRACTICE writing e- dot diagrams for ionic compounds:

- 1) potassium iodide – KI
- 2) aluminum fluoride – AlF_3
- 3) sodium phosphide – Na_3P
- 4) strontium oxide – SrO
- 5) zinc chloride – ZnCl_2

PRACTICE writing e- dot diagrams for ionic compounds:

- 1) potassium iodide – KI
- 2) aluminum fluoride – AlF_3
- 3) sodium phosphide – Na_3P
- 4) strontium oxide – SrO
- 5) zinc chloride – ZnCl_2

PRACTICE writing e- dot diagrams for ionic compounds:

- 1) potassium iodide – KI
- 2) aluminum fluoride – AlF_3
- 3) sodium phosphide – Na_3P
- 4) strontium oxide – SrO
- 5) zinc chloride – ZnCl_2

PRACTICE writing e- dot diagrams for ionic compounds:

- 1) potassium iodide – KI
- 2) aluminum fluoride – AlF_3
- 3) sodium phosphide – Na_3P
- 4) strontium oxide – SrO
- 5) zinc chloride – ZnCl_2

PRACTICE writing e- dot diagrams for ionic compounds:

- 1) potassium iodide – KI
- 2) aluminum fluoride – AlF_3
- 3) sodium phosphide – Na_3P
- 4) strontium oxide – SrO
- 5) zinc chloride – ZnCl_2
